

CSUA Sports Management System

User Manual and Core Features

Cagayan State University–Aparri Campus

System for managing sports and socio-cultural events

Secure, role-based access for administrators and tournament managers

Automated publication of schedules and game information through the public portal

The CSUA Sports Management System is a web-based platform designed to support the management, scheduling, monitoring, and dissemination of campus sports and socio-cultural events.

It enables authorized users to manage tournament activities while allowing the public to conveniently view published game schedules and available results.

The system uses role-based access control to ensure that users can only access functions and events assigned to them.

System Overview

Three Main Core Features

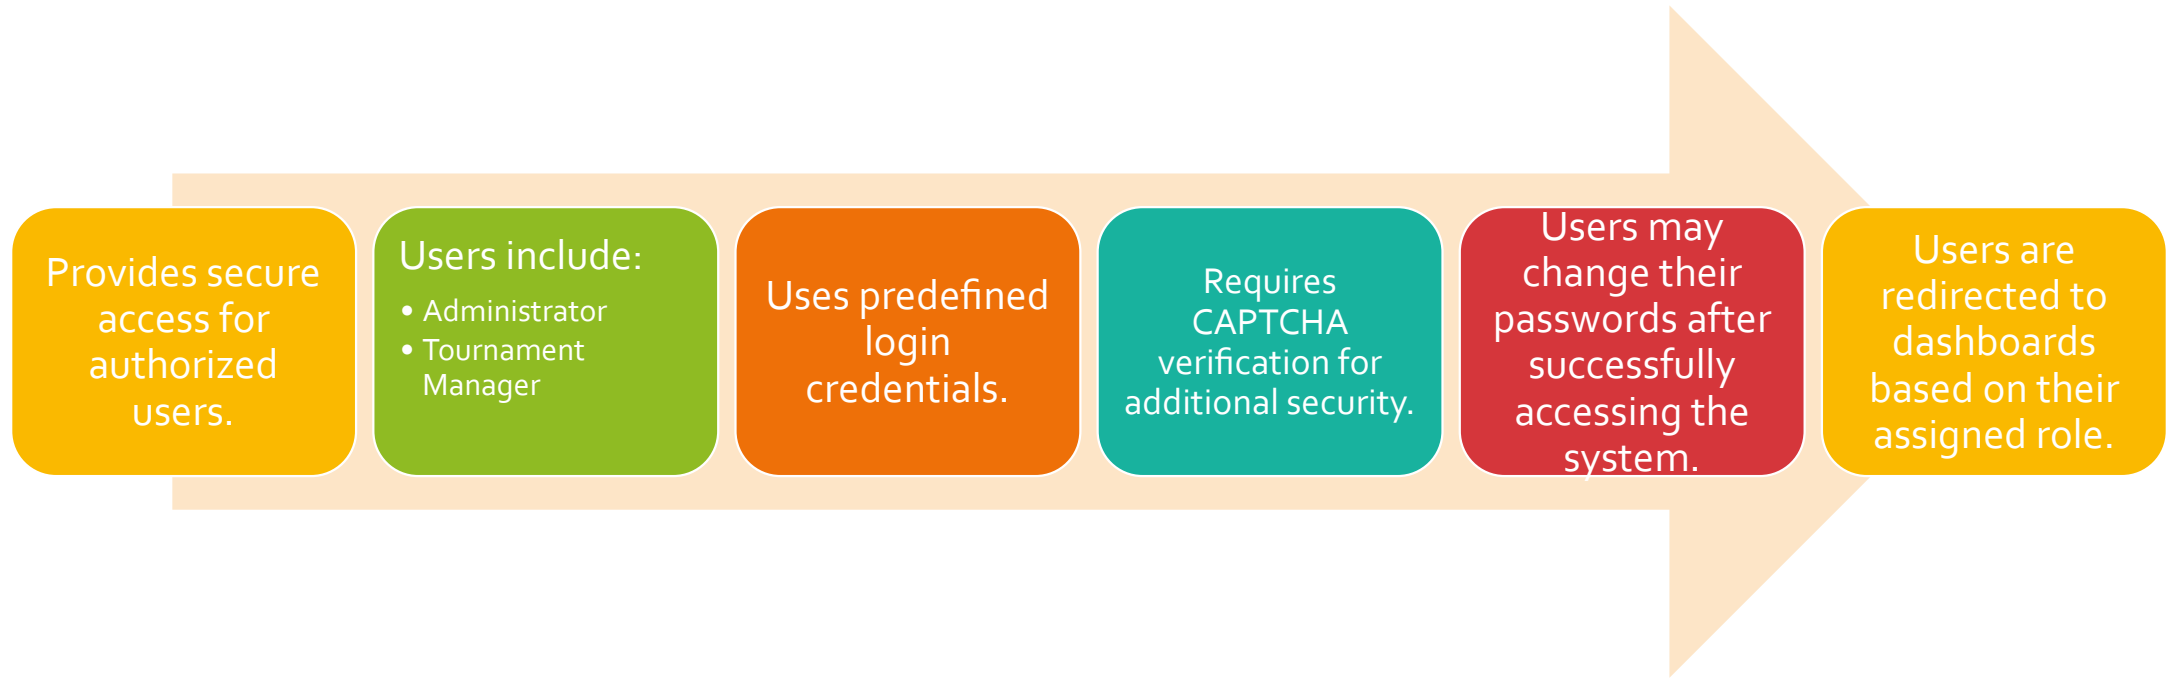

1. SYSTEM ACCESS
AND USER
AUTHENTICATION

2. TOURNAMENT
MANAGER
ACCESS AND
GAME SCHEDULE
MANAGEMENT

3. GAME
RESULT AND
WINNER
MANAGEMENT

Feature 1: System Access

1

Step 1: Open the CSUA Sports Management System.

2

Step 2: Enter the assigned username/email and password.

3

Step 3: Complete the CAPTCHA verification.

4

Step 4: Click the Login button.

5

Step 5: Access the dashboard based on the assigned user role.

Feature 1: Login Procedure

Feature 2: Tournament Manager Access

Allows Tournament Managers to create and manage game schedules for their assigned sports or events.

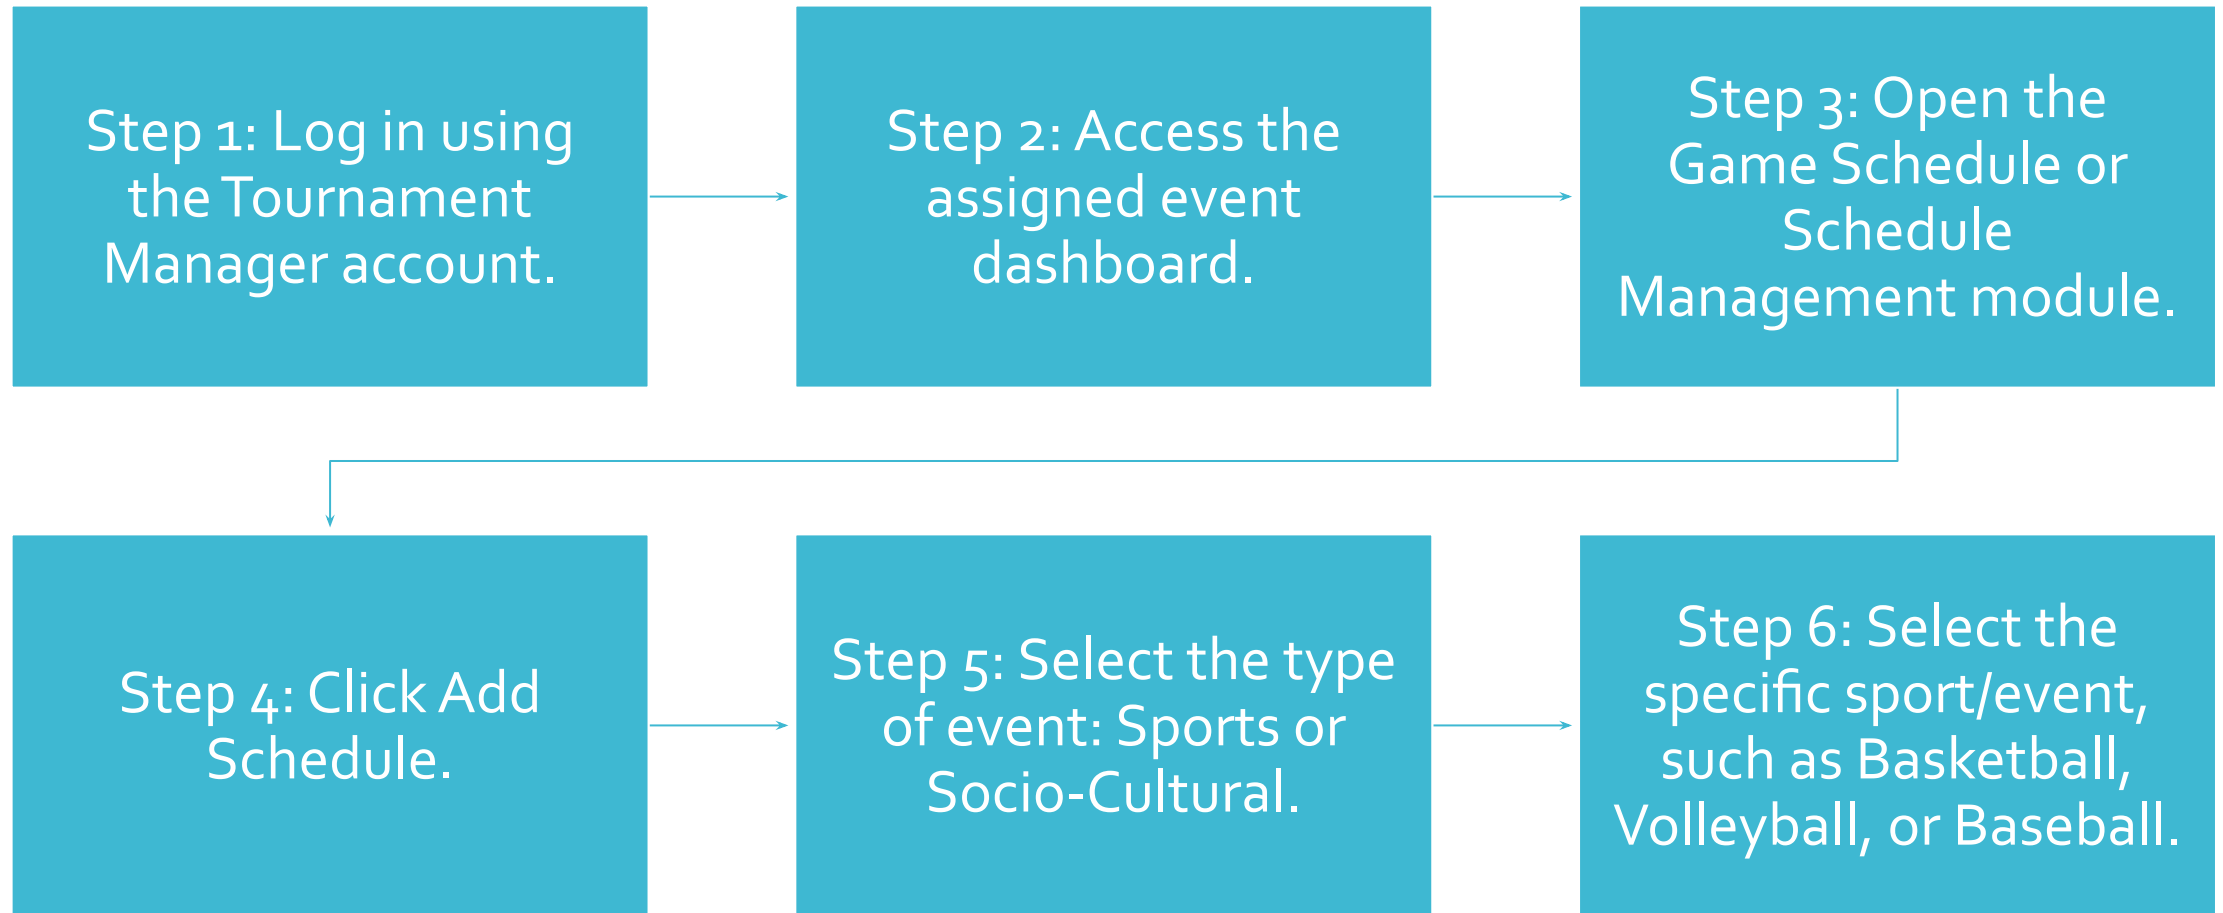

The system uses role-based access.

Tournament Managers can only access and manage the sport/event assigned to their account.

Example: A Basketball Tournament Manager manages basketball-related games only.

Added schedules are automatically displayed on the system's Public Portal.

Feature 2: Adding a Game Schedule

Feature 2: Schedule Details

The Tournament Manager will need to provide the following details:

- **Category** – Men or Women, Single or Double
- **Game Number**: 1, 2, 3, etc...
- **Match Type**: Head-to-Head or Multiple Teams/All Colleges
- **Date and Time**
- **Venue**

The information is reviewed before the schedule is saved.

Feature 2: Match Types

Head-to-Head

- The Tournament Manager selects the two colleges competing in the game.
- Example: College A vs. College B

Multiple Teams / All Colleges

- The event involves multiple participating colleges based on the event configuration.

Feature 2: Automatic Public Schedule Display

Once the schedule
is successfully
saved:

1. The system
stores the game
schedule.

2. The schedule is
automatically
reflected on the
Public Portal.

3. Students,
faculty, staff, and
visitors can view
the schedule.

4. No separate
manual posting is
required.

The screenshot shows the CSUA Intramurals website. At the top is the Cagayan State University logo and name. Below is the 'CSUA Intramurals' title and a navigation bar with links for RANKINGS, SCHEDULE, DOWNLOADABLES, ABOUT, and TOURNAMENT MANAGER DASHBOARD. The 'Tournament Manager Dashboard' section includes a sub-header 'Update schedules and results for your assigned event.' and buttons for Standings, ENTER, Schedule, and MANAGE. The 'Event Schedule & Stats' section contains the 'Add Schedule Game' form. This form has fields for STANDING TYPE (Sports), SPORT (Basketball), CATEGORY (None), EVENT (Event name), GAME #, DATE (mm/dd/yyyy), TIME (---:--:--), VENUE (Venue), MATCH TYPE (Head to Head), and TEAMS (two 'Select team' dropdowns). A red box highlights the entire 'Add Schedule Game' form area, and a red arrow points from the 'Add Schedule' button to the 'Venue' field.

Viewers can filter by event and by category

Schedule of game per event

Feature 3: Game Result and Winner Management

Allows Tournament Managers to record and update the winner of completed games.

Tournament Managers can only update games under their assigned sport or event.

Example:

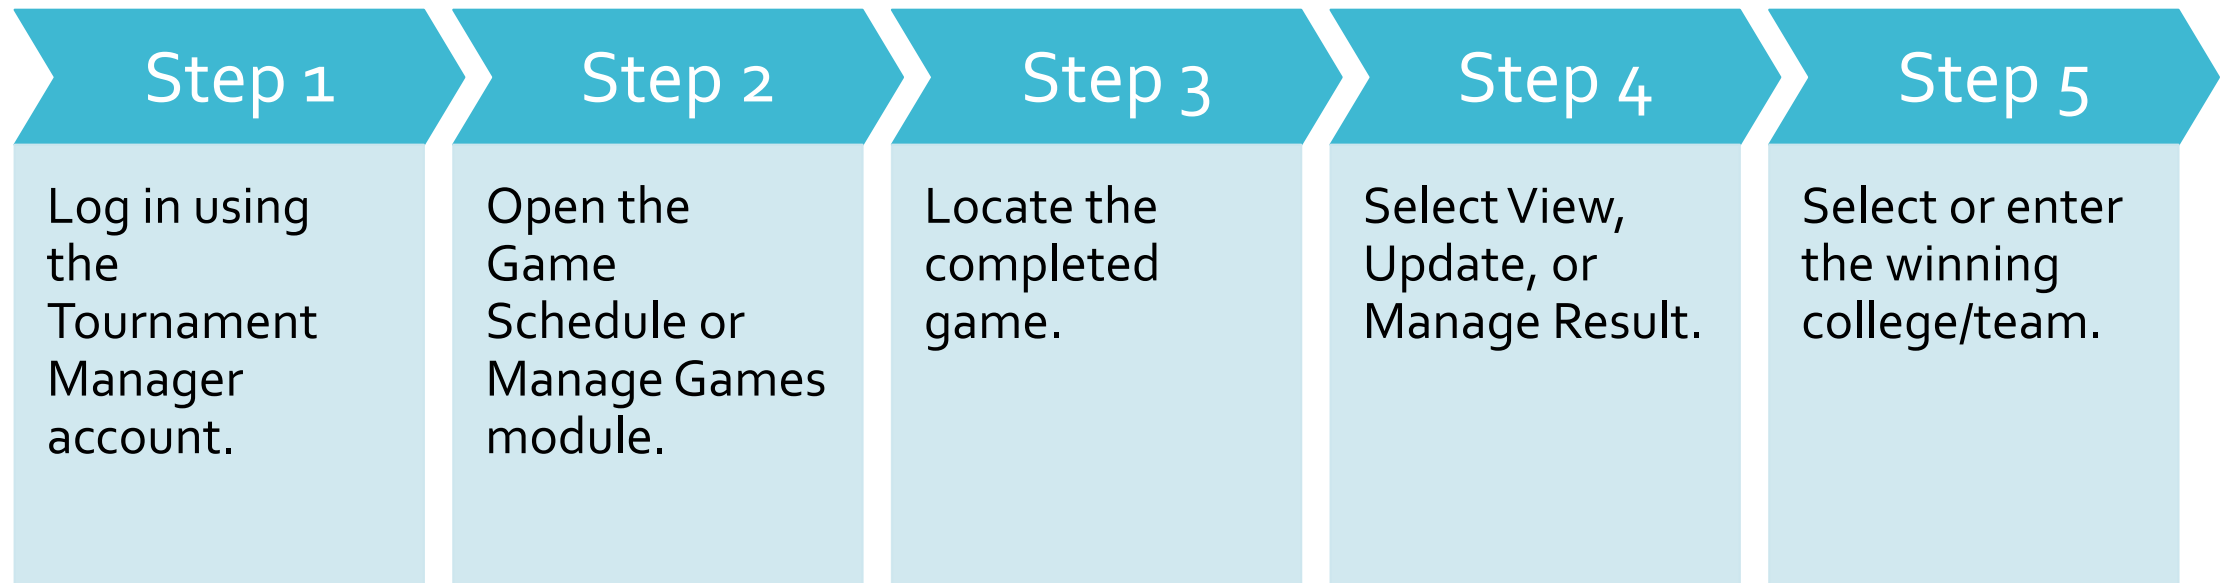

Baseball Tournament Manager → Baseball
schedules and results only

Basketball Tournament Manager →
Basketball schedules and results only

This helps protect tournament records from unauthorized modifications.

Feature 3: Updating the Game Winner
